

Richmond, CA Renewable Fuels Project

New Rail Tracks

Request for Proposal 2024-0025

REVISION A

9/20/2024

1. Scope of Work

This scope of work includes the installation of (2) new rail tracks at 300 Cutting Blvd. The new rail tracks will provide a total 610 feet for car storage. The construction will include rails, spurs, grading, etc. This work will be coordinated with Richmond Pacific Rail Company ("RPRC") and their construction contractor.

There is no mechanical or electrical scope.
